Thank you for agreeing to participate in the Growing Up With Media Year 4 survey. We are conducting this survey on behalf of Internet Solutions for Kids, a nonprofit research organization, and the Centers for Disease Control and Prevention (CDC). All of the information you provide will be kept completely private. Our first few questions are to make sure that we have contacted the same adult who completed the survey back in 2006. They also will help us properly analyze responses to this survey.

First, are you a...?

- IF ATTEMPT #2 (Q1018/2), DISPLAY: The date of birth or gender you entered does not match our records for the adult who completed the survey back in 2006. Please review your information and try again. Please note the following before re-entering your information:
  - 1) The same adult who completed the survey in 2006 should do so now. If that adult is no longer able to participate in the study, please contact us at [growingupwithmedia@harrisinteractive.net](mailto:growingupwithmedia@harrisinteractive.net). We will be in touch with you as to how you can proceed.
  - 2) The youth section of the survey starts only after the adult section is complete. If you are the child who has previously participated in this study, please be sure to have your parent or guardian complete his/her section first.
  - 3) Please double-check the day, month and year you enter before clicking on the forward arrow below to ensure the drop-down menus reflect the correct date.

Are you a...?

- ALL OTHERS, DISPLAY: Thanks for your patience in answering this question. However, the date of birth or gender you entered does not match our records for the adult who completed the survey back in 2006. Please review your information and try again.

It is very important that you and your [INSERT FROM Q690] take the survey in a place that is private. You should feel comfortable to answer the questions honestly. Please do not watch your [INSERT FROM Q690] or try to tell [INSERT FROM Q699] how to answer any question. Your [INSERT FROM Q690] will not be able to see your answers.

All of the answers you and your child give will be kept private. The answers will be stored in a secure location and will not have information identifying you or your [INSERT FROM Q690]. Only key study personnel will have access to your personal information. No parent or child will ever be listed by name in a report of the results.

This year, you will receive a \$20 check and your [INSERT FROM Q690] will receive a \$25 gift certificate after you have both gone through the entire survey.

We will ask you and your child to fill out up to two more surveys on the Internet. The next survey will be one year from now and the last survey will be two years from now. Next year, you may be eligible to receive a \$20 check and your child will receive \$25 when [INSERT FROM Q697]

completes the survey. And in the final year, you may be eligible to receive a \$30 check and your child will receive \$35 when [INSERT FROM Q697] completes the year 6 survey. In any year, if you complete the survey and your [INSERT FROM Q690] chooses not to participate, we will still mail you a check for your time.

Some of the questions we ask are about exposure to violence including sexual violence, physical and verbal abuse, and related content seen on TV, the Internet, video games, and movies. We also will ask about things like substance use such as drinking and smoking and experiences with sexual pictures. In order to understand why some kids have unhealthy relationships, we need to ask these questions of young people. Your answers help us to better understand things that teens and young adults are doing so that we can help them live more healthy lives. Your participation is very important.

Taking these surveys will not help or hurt you or your [INSERT FROM Q690]. It is possible that some people might feel uncomfortable answering some questions. If you wish to review the survey questions before proceeding, or if any questions or concerns arise regarding the survey questions, please contact Dr. Michele Ybarra, at 1-877-302-6858 or [Michele@ISolutions4Kids.org](mailto:Michele@ISolutions4Kids.org).

Your and your [INSERT FROM Q691] participation is completely voluntary. You and your [INSERT FROM Q690] may skip any question you or your [INSERT FROM Q690] do not want to answer for any reason.

If you have questions about the research study or would like to receive a full copy of the survey instrument, please contact:

Title of research project: Growing Up With Media

Purpose of the consent form: To tell you about the survey

Purpose of the research study: To understand how media may be affecting youth sexual experiences and behavior

Group conducting data collection: Harris Interactive

You are one of about 1,600 young people who we have asked to take the “Growing Up With Media Year 4” survey. You are invited to participate because you completed a survey in 2006. This page explains this research study. Please read it carefully.

[IF NOT DIRECT TO 18+ (Q635/1) INSERT: Your parent or guardian received an email from us that had a link to this year’s survey. They have finished the Adult Survey. Now, it is your turn to answer questions in the Youth Survey.] This survey will take you about 30 minutes to complete.

It is important that you fill out the survey by yourself. You need to be in a place that is private and you feel safe. No one should be able to see your answers. No one should tell you what your answers should be.

We will not share your answers with your parents or anyone else outside of the research team. Youth answers will be kept in a safe place. We will never associate your responses to any personal information you provide. Your answers will only be reported together with others and will not be traced back to you.

We will mail you a check or gift certificate for \$25 after you do this survey. [IF DIRECT TO 18+ (Q635/2) INSERT: If you are eligible to receive the additional \$5 for completing the survey early, you will receive a \$30 check or gift certificate.] [IF NOT DIRECT TO 18+ AND STILL ELIGIBLE FOR EXTRA INCENTIVE (Q5011/1), INSERT: You can also earn an extra \$5 if you complete the survey by 11:59 PM U.S. Eastern time on [INSERT Q1256].]

We will ask you to fill out two more surveys on the Internet. The next survey will be one year from now and the last survey will be two years from now. If you do the survey next year, you will get a \$25 check or gift certificate then. In the third year, you will get a \$35 check or gift certificate after you complete

that survey.

Some of the questions we ask are about exposure to violence (including sexual violence, physical and verbal abuse, and related content seen on TV, the Internet, video games, and movies) and whether you have been a victim of abuse. We also will ask about things like substance use such as drinking and smoking and experiences with sexual pictures.

In order to understand why some kids have unhealthy relationships, we need to ask these questions of young people. Your answers help us to better understand things that teens and young adults are doing so that we can help them live more healthy lives. Your participation is very important.

Taking this survey will not help or hurt you. Some young people said that some of the questions in the last survey made them upset. You should know that the survey asks you about things you may have seen or done that might be hard to talk about

You do not have to answer any question you do not want to for any reason. Your answers are important to us.

We will not share your answers with your parents. Your answers will be kept in a safe place.

Title of research project: Growing Up With Media

Purpose of the assent form: To tell you about the survey

Purpose of the research study: To understand how media may be affecting youth sexual experiences and behavior

Group conducting data collection: Harris Interactive

You are one of about 1,600 young people and their parents who we have asked to take the “Growing Up With Media Year 4” survey. This page explains this research study. Please read it carefully.

Your parent or guardian received an email from us that had a link to this survey. They have finished the Adult Survey. Now, it is your turn to answer questions in the Youth Survey. It will take you about 30 minutes.

It is important that you fill out the survey by yourself. You need to be in a place that is private and where you feel safe. No one should be able to see your answers. No one should tell you what your answers should be.

We will not share your answers with your parents or anyone else outside of the research team. Your answers will be kept in a safe place. We will never associate your responses to any personal information you provide. Your answers will only be reported together with others and will not be traced back to you.

We will mail you a gift card for \$25 after you do this survey.

We will ask you and your parent or guardian to fill out two more surveys on the Internet. The next

survey will be one year from now and the last survey will be two years from now. If you do the survey next year, you will get another \$25 gift card. In the third year, you will get a \$35 gift card after you complete that survey.

Some of the questions we ask are about exposure to violence including sexual violence, physical and verbal abuse, and related content seen on TV, the Internet, video games, and movies. We also will ask about things like substance use such as drinking and smoking and experiences with sexual pictures. In order to understand why some kids have unhealthy relationships, we need to ask these questions of young people. Your answers help us to better understand things that teens and young adults are doing so that we can help them live more healthy lives. Your participation is very important.

Taking this survey will not help or hurt you. Some young people said that some of the questions in the last survey made them upset. You should know that the survey asks you about things you may have seen or done that might be hard to talk about.

You do not have to answer any question you do not want to for any reason. Your answers are important to us.

We will not share your answers with your parents. Your answers will be kept in a safe place.
