Thank you for agreeing to participate in the Growing Up With Media Year 6 survey. We are conducting this survey on behalf of Internet Solutions for Kids, a nonprofit research organization, and the Centers for Disease Control and Prevention (CDC). All of the information you provide will be kept completely private. Our first few questions are to make sure that we have contacted the same adult who completed the survey back in 2006. They also will help us properly analyze responses to this survey.

First, are you a...?

- IF ATTEMPT #2 (Q1018/2), DISPLAY: The date of birth or gender you entered does not match our records for the adult who completed the survey back in 2006. Please review your information and try again. Please note the following before re-entering your information:
  - 1 The same adult who completed the survey in 2006 should do so now. If that adult is no longer able to participate in the study, please contact us at [growingupwithmedia@harrisinteractive.net](mailto:growingupwithmedia@harrisinteractive.net). We will be in touch with you as to how you can proceed.
  - 2 The youth section of the survey starts only after the adult section is complete. If you are the child who has previously participated in this study, please be sure to have your parent or guardian complete his/her section first.
  - 3 Please double-check the day, month and year you enter before clicking on the forward arrow below to ensure the drop-down menus reflect the correct date.

Are you a...?

- ALL OTHERS, DISPLAY: Thanks for your patience in answering this question. However, the date of birth or gender you entered does not match our records for the adult who completed the survey back in 2006. Please review your information and try again.

**Q1000** [PARENT SURVEY CONSENT QUESTION]

Before we begin, we ask that you read the following consent form. Please read it carefully.

Background/ Purpose

You and your [INSERT FROM Q690] who was [INSERT CHILD AGE FROM Q607]-years-old at that time participated in the Growing Up With Media survey in August/September 2006. [INSERT HIS/HER FROM Q700] name or initials are [INSERT CHILD'S FIRST NAME FROM Q609]. The results of the study have been so important that we are continuing the survey.

The purpose of the study is to better understand why some kids have healthy relationships while others have unhealthy relationships, and how media may or may not influence this. To understand this issue, some of the questions we ask are sensitive. Types of questions include things like exposure to violence (including sexual violence), involvement in physical and verbal abuse in romantic relationships, and related content seen on TV, the Internet, video games, and movies. We also will ask about things like substance use such as drinking and smoking and experiences with sexual pictures. The results of this study will help researchers design programs that will help young people make healthy choices and live healthier lives.

Procedures

You are one of about 1,600 parents or guardians and their children who are being asked to take part in the "Growing Up With Media Year 6" survey. The first part of the survey is for parents and will take about 15 minutes. When you are finished, please ask your [INSERT FROM Q690] to come to the computer to complete [INSERT FROM Q698] survey. If it is not a good time for your [INSERT FROM Q690], [INSERT FROM Q697] may choose to complete it later. It will take your [INSERT FROM Q690] about 30 minutes to take the survey.

**It is very important that you and your [INSERT FROM Q690] take the survey in a place that is private. You should feel comfortable answering the questions honestly. Your [INSERT FROM Q690] will not be able to see your answers when [INSERT FROM Q697] does [INSERT FROM Q698] survey. Just as importantly: Please do not watch your [INSERT FROM Q690] or try to tell [INSERT FROM Q699] how to answer any question.**

Incentives

You will receive a \$30 check and your [INSERT FROM Q690] will receive a \$35 gift certificate after you have gone through the entire survey. If you complete the survey and your [INSERT FROM Q690] chooses not to participate, we will still mail you a check for your time.

### Risks and discomforts

Taking these surveys will not help or hurt you or your [INSERT FROM Q690]. It is possible that some people might feel uncomfortable answering some questions. If you wish to review the survey questions before proceeding, or if any questions or concerns arise regarding the survey questions, please contact Dr. Michele Ybarra, at 1-877-302-6858 or Michele@ISolutions4Kids.org.

### Benefits

Your answers help us to better understand things that teens and young adults are doing so that we can help them live more healthy lives. Your participation is very important.

### Rights of refusal and withdrawal

Your and your [INSERT FROM Q691] participation is completely voluntary. You can choose not to take part in the research study at any time. If you choose not to take part, your child cannot take part. If you choose to stop taking part in the research study, please call or email the principal investigator so that she can take you off of the list of participants and you will not be recontacted. Your [INSERT FROM Q690] also has the right not to take part in the research study; [INSERT FROM Q697] can choose to stop taking part in the research study at any time. Choosing not to take part will not in any way harm you or your [INSERT FROM Q690].

You and your [INSERT FROM Q690] may skip any question you or your [INSERT FROM Q690] do not want to answer for any reason.

### Confidentiality

Only key study personnel will have access to your personal information. No parent or child will ever be listed by name in a report of the results.

To help us protect your privacy, we have obtained a Certificate of Confidentiality from the Centers for Disease Control and Prevention. With this Certificate, we cannot be forced to share information that may identify you, even by a court subpoena, in any federal, state, or local civil, criminal administrative legislative, or other proceedings. *The progress bar at the bottom of your screen shows approximately what portion of the survey you have completed.*

Before we begin, we ask that you read the following consent form. Please read it carefully.

Background/ Purpose

You are one of about 1,600 young people who we have asked to take the “Growing Up With Media Year 6” survey. You are invited to participate because you completed a survey in 2006.

The purpose of the study is to better understand why some young people have healthy relationships while others have unhealthy relationships, and how media may or may not influence this. To understand this issue, some of the questions we ask are sensitive. Topics include exposure to violence including sexual violence, physical and verbal abuse, and related content seen on TV, the Internet, video games, and movies. We also will ask about things like substance use such as drinking and smoking and experiences with sexual pictures. We need to ask these questions so we can better understand why some young people have unhealthy relationships. Your answers will help researchers design programs that will help young people make healthy choices and live healthier lives.

Procedures

[IF NOT DIRECT TO 18+ (Q635/1) INSERT: Your parent or guardian has finished the Adult Survey. Now, it is your turn to complete the Youth Survey.] This survey will take you about 30 minutes to complete.

It is important that you fill out the survey by yourself. You need to be in a place that is private and you feel safe. No one should be able to see your answers. No one should tell you what your answers should be.

Incentives

We will mail you a check or gift certificate for \$35 when you finish the survey. [IF DIRECT TO 18+ (Q635/2) INSERT: If you are eligible to receive the additional \$5 for completing the survey early, you will receive a \$40 check or gift certificate.] [IF NOT DIRECT TO 18+ AND STILL ELIGIBLE FOR EXTRA INCENTIVE (Q5011/1), INSERT: You can also earn an extra \$5 if you complete the survey by 11:59 PM U.S. Eastern time on [INSERT Q1256].]

Risks and discomforts

Taking this survey will not help or hurt you. Some young people said that some of the questions in the last survey made them upset. You should know that the survey asks you about things you may have seen or done that might be hard to talk about.

### Benefits

Your answers help us learn things that teens and young adults are doing so that we can help them live more healthy lives. Your participation is very important.

### Rights of refusal and withdrawal

Your participation is completely voluntary. You can choose not to be in the study at any time. [IF NOT DIRECT TO 18+ (Q635/1) INSERT: Your parent or guardian also can choose to stop being in the study at any time.] If you want to stop taking part in the study, please email us at [Michele@ISolutions4Kids.org](mailto:Michele@ISolutions4Kids.org). If you choose to stop participating in the study, we will not contact you again. It will not hurt you if you choose not to be in the study.

You do not have to answer any question you do not want to for any reason. Your answers are important to us.

### Confidentiality

All of the answers you give will be kept private. We will not share your answers with your parents or anyone else outside of the research team. Your answers will be kept in a safe place. We will never associate your responses to any personal information you provide. Your answers will only be reported together with others and will not be traced back to you. To help us protect your privacy, we have obtained a Certificate of Confidentiality from the Centers for Disease Control and Prevention. With this Certificate, we cannot be forced to share information that may identify you, even by a court subpoena, in any federal, state, or local civil, criminal administrative legislative, or other proceedings. We will use the Certificate to refuse to give anyone information that will identify you, except when you tell us it is okay to do so. But in the unlikely event that you tell us that you are currently abusing or planning to abuse a child, or you're planning to harm yourself or another person, then under applicable law we may be required to report this information to the appropriate authorities.

Before we begin, we ask that you read the following assent form. Please read it carefully.

Background/ Purpose

You are one of about 1,600 young people and their parents who we have asked to take the “Growing Up With Media Year 6” survey.

The purpose of the study is to better understand why some young people have healthy relationships while others have unhealthy relationships, and how media may or may not influence this. To understand this issue, some of the questions we ask are sensitive. Topics include exposure to violence including sexual violence, physical and verbal abuse, and related content seen on TV, the Internet, video games, and movies. We also will ask about things like substance use such as drinking and smoking and experiences with sexual pictures. We need to ask these questions so we can better understand why some young people have unhealthy relationships. Your answers will help researchers design programs that will help young people make healthy choices and live healthier lives.

Procedures

Your parent or guardian has finished the Adult Survey. Now, it is your turn to complete the Youth Survey. It will take you about 30 minutes.

It is important that you fill out the survey by yourself. You need to be in a place that is private and where you feel safe. No one should be able to see your answers. No one should tell you what your answers should be.

Incentives

We will mail you a gift card for \$35 when you finish the survey.

Risks and discomforts

Taking this survey will not help or hurt you. Some young people said that some of the questions in the last survey made them upset. You should know that the survey asks you about things you may have seen or done that might be hard to talk about.

Benefits

Your answers help us learn things that teens and young adults are doing so that we can help them live more healthy lives. Your participation is very important.

### Rights of refusal and withdrawal

Your parent or guardian has told us that it is all right for you to be in this study. We also want to make sure that it is okay with you. You can choose to be in the study. You can choose not to be in the study at any time. Your parent or guardian also can choose to stop being in the study at any time. If you or your parent wants to stop taking part in the study, please email us at Michele@ISolutions4Kids.org. If you or your parent stops being in the study, we will not contact you again. It will not hurt you or your parent if either of you chooses not to be in the study.

You do not have to answer any question you do not want to for any reason. Your answers are important to us.

### Confidentiality

All of the answers you give will be kept private. We will not share your answers with your parents or anyone else outside of the research team. Your answers will be kept in a safe place. #### CUSTOM ERROR MESSAGES:

For multiple response questions, replace error message “Invalid choice combination” with “You have selected choices that do not go together. Please review your choices and try again.”

For numeric text boxes, replace error message "Invalid value. Valid range is : "0/30"" with "Please enter a response between 0/30."

For Q4028 and all similar questions where we ask a respondent to record years and months, we want to make both text boxes mandatory. If one is left blank, please show the following custom error message “Please enter a response in both the “years” and “months” boxes below. For example, if you have been in a relationship for 6 months, please enter “0” for years and “6” for months.”

For survey errors, please set up this message: “We apologize but a technical error has occurred. Please email [growingupwithmedia@harrisinteractive.net](mailto:growingupwithmedia@harrisinteractive.net) for help.””
